

GENERAL INFORMATION

Program Name	Nursing
Brief History of the Program	The nursing department was established in the 2012-2013 academic year to train "Nurses". There is no preparatory program or evening education. Graduates of the program can work as nurses in public and private inpatient/outpatient treatment institutions affiliated with the Ministry of Health, private hospitals, nursing homes, schools and workplaces. They can be appointed as Nurses according to the Public Personnel Selection Exam (PPSE).
Purpose of the Program	The purpose of the undergraduate program in nursing is to train professionals who understand human values and behaviors, who can determine the needs of healthy or sick individuals, and who can provide health care in line with these needs. For this purpose, the nursing education provided is carried out on the basis of scientific problem solving, continuous research and learning, in accordance with international standards, national laws, regulations and requirements. In this context, a nurse is a person who sees the individual as a whole with his/her biopsychosocial and spiritual dimensions in the solution of both existing and potential health problems and uses the nursing process, which is a scientific problem solving system.
Head of Department	Doç. Dr. Döndü ŞANLITÜRK dondutuna@gop.edu.tr Domestic Line: 5125
Faculty Secretary	Keramettin ŞAHİN keramettin.sahin@gop.edu.tr Domestic Line: 5180
Graduation Requirements	Successfully completing all courses in the program (equivalent to a total of 240 ECTS) and having a weighted grade point average of at least 60 out of 100 are required qualifications for graduation.
Measurement and Evaluation	Students are subject to the provisions of Gaziosmanpaşa University Associate and Undergraduate Education-Teaching and Examination Regulations. Students take at least one midterm and one final exam for each course. As a result of the evaluation made by taking 40% of the midterm exam and 60% of the final exam, students who fail are given the right to take a make-up exam. In addition, students who fail a course at the graduation stage and cannot graduate are given the right to take a single course exam.

Exams	August 25-27, 2025
Summer school exam results are entered into the system by course instructors.	August 25-28, 2025
Single course exam (for students who have only one course left according to the summer school exam results)	September 12, 2025
Saturdays are also included in the summer school education period.	

EXPLANATION

A semester is planned as 14 weeks of classes, midterm exams and a final exam week. Classes will be suspended during the midterm exam week.

Fall and Spring semester midterm exams are planned to be held after the 8th week of classes. Exams that cannot be held during the midterm week (due to open education exams on midterm exam days, insufficient time for midterm exams due to the large number of courses, etc.) can be held during the following week of classes.

The spring semester final exams are planned to start on 25.05.2025 and end on 03.06.2025 before the Eid al-Adha 2025. If there is an open education or YKS exam on the weekend of 31 May - 01 June 2024, the exams will be planned excluding these days.

* This is the exam for students who have newly registered to units with a compulsory preparatory class or who have registered to programs with a compulsory preparatory class in previous years and failed the preparatory class.

** It is an exam held to determine the Foreign Language Levels of students who will attend compulsory and optional preparatory classes.

*** This is the exam taken to be exempt from the Informatics course and the foreign language courses that are required to be given in accordance with Article 5, Clause (ı) of Law No. 2547.
